Council Says "Questions Must Be Answered" Or DC's Future Growth May End

Opposition to the proposed Christen annexation, more than 1,000 acres of uninhabited grazing land south of the city's boundaries, came out in full force at the Monday night council meeting as citizens urged a ballot vote on the issue.

After the arguments were heard, Acting Mayor Joe Verducci stated that "I think we must understand that unless most of the questions posed here tonight are answered satisfactorily, even council opposition may develop and forever make it impossible for us to have any future growth."

Perhaps the strongest arguments were voiced by tavern owner George Kirchhubel, who said "I think the matter should be submitted to the electorate in the April election. If you go into the costly thing of another referendum then you'll have the same trouble again."

"We've had annexations that ward O'Hara. Both urged a vote said.

"A good example is St. Francis Heights. We don't get anything from St. Francis Heights. Westlake — what did we get — we got a lot of promises."

Kirchhubel noted that Westlake and St. Francis Heights comprise about 60 per cent of the city's population. But, he said, "What has annexation done to old Daly City?

He quoted the following figures:

In old Daly City there are five supermarkets and 25 grocery stores. In Westlake, there are two. In the old section there are 16 on sale licenses for liquor. There are three in Westlake and St. Francis Heights. Old Daly City, he said, has 22 restaurants and coffee shops.

Westlake has six. Old Daly City has seven new car sales firms and all of the old used cars. Westlake has "'nothin."

Parking meters — "All the parking meters are on Mission Street in the old section. The problem that confronts me is what are we getting."

Speaking for the Citizen's Committee for Good Goverment were Julius F. Castelan, 862 Bellevue Ave., and attorney Edward O'Hare. Both urged a vote on the matter.

"This annexation is not a subdivision," Castelan said. "It's farm land. I don't know why, what and when Daly City needs 1,000 acres of farm land."

Attorney O'Hara appealed to the council to make a "long and searching scrutiny of the annexation proposal. He said the city council should not forget the "long, public clamor made by the Callan annexation."

O'Hara read from a letter from F. J. Walker, president of the committee for good government, which stated "Let the voters decide on the issue by presenting this to them at the next election."

Councilman E. J. Dennis said that he feels "no haste should be taken in this matter."

The hearing on the Christen annexation was continued for two weeks until Nov. 13.

In other action the council:

Passed a resolution to accept the Eastmoor annexation of two acres north of St. Francis Heights unit 6 subdivision and north of Eastmoor Avenue, which is presently "part in the county and part in the city."

Accepted a map of Westlake Unit IB.

Decided to move with all possible speed to place pedestrian crossings on Eastmoor Avenue near St. Francis. Urging quick action was Mrs. Stephen Goin, 109 Mirada Drive. She said motorists will not stop for pedestrians and should be forced to stop.

Mrs. Goin presented a petition with 400 signitures to the council, urging the pedestrian crossing.

Sheldon Prezant, 798 Higate, said something should be done about "freeway" traffic which hazards children going to Christopher Columbus School. Two weeks ago, he said, a boy was almost killed at Westmoor and Southgate.

City finance department reported a financial status strengthened during the past year with an overall surplus balance of $340,347. This was caused by spending $72,705 less than appropriated.

City Councilman Frank Pacelli, said he was opposed to the Jefferson Elementary District locating a pedestrian overpass 100 feet north of Glenwood Drive in front of the fire station and "creating a hazard for school children."

The city attorney said Daly City in his judgment "has the right to oppose the school district's position" on location of the crossing.

Apartment House Blaze Quelled

A fire of unknown origin burned portions of the second and third levels of an unfinished apartment house Tuesday, Oct. 24, at 3:39 a.m. at 14 Third avenue between Price and Castle streets.

The fire started in the center apartment on the third floor, burned walls and floor. Firemen were to investigate the cause of the blaze.

Five-year old Pauline Turbin, daughter of Mrs. J. E. Turbin, 368 Eastmoor, was rushed to Junipero Serra Hospital Saturday, Oct. 21, with head injuries after she was struck by a car while crossing the street on Eastmoor at Mirada.

She was running with a group of children to the M. Pauline Brown School site when struck by a car driven by Janice Ruth Tavel, 290 Verano drive, Daly City. The driver was not cited.

The show, the only major exhibition of new cars in the area this year, will feature the 1962 models of all major American automobile manufacturers and will include a wide variety of foreign-made sports cars and motor scooters.

More than 20 dealers from Daly City, South San Francisco, San Bruno and San Francisco will participate in the show which is sponsored by the Westlake Merchants Association.

Some 75 automobiles will be spotted throughout the Westlake Court and in some of the stores in the popular Daly City Shopping Center for the event which will open at noon Wednesday and will continue through Saturday (Nov. 1-4).

"This year we are confident that it will be an even greater success than it has in the past and expect it to draw more than 60,000 people."

City Council's Answer To The Proposed Annexation

The Daly City Council made the following statement Monday night in regards to the proposed Christen annexation:

'It seems to us that many questions have been raised tonight for which we, as yet, may not have any answers. I am sure that this council will not act on this annexation until these questions have been answered to our satisfaction.

"One of our major areas of concern is the completion of an acceptable land-use plan for the land involved.

"We are also concerned about our eventual tax base. Just how will this annexation effect the tax bills of our older residents?

"What are the problems confronting the elementary and high school boards?

"Earlier, we felt there would be no opposition. That is why we have come along as far as we have on this annexation. Since there is some opposition, conceivably, the ambition for greater growth and prestige may be thwarted. I think we must understand that unless most of the questions posed here tonight are answered satisfactorily, even council opposition may develop and forever make it impossible for us to have any future growth."

Terra Nova Building Slows, Blame Put On Subcontractors

"Why is the Terra Nova project incomplete?" That was the question asked of architect Corwin Booth at Jefferson Union High School District's Monday night meeting of the Board of Trustees.

The architect, AIA member of the firm of Falk & Booth, and the Board's adviser on School District construction, indicated that the fault lay on the shoulders of a few of the project's sub-contractors.

The project, 97% complete, has been languishing since contract date for completion passed in late September.

Booth indicated that the problem was a general one that many school boards experience. "It seems to be getting worse and worse," he stated. "School Boards are reluctant to assess because they feel it will be difficult to make it stick."

Meanwhile the girls' locker room and the snack bar remain incomplete. The paving and grading unfinished.

"I think we should move on this," said Chairman Cooper.

The board can assess the general contractor $50 per day for each day the contract remains unfulfilled. He then can assess the guilty subcontractors.

"Fontana is the one hurting us the most," said Booth of grading and paving sub-contractor B. Fontana & Sons of South San Francisco. Others named were: Allied Plasterers Inc., of Redwood City; Alves Tile Co., of Redwood City; Habenicht & Howlett of San Francisco; and George F. Casey of Berkeley.

Jefferson

Superintendent Edward Morgan reported on the general on site development at Jefferson High. He stated that the Department of Finance has been reluctant to grant funds for widening of the school's track, and resodding of the football field. At present the school has a 7 lane running track, 3 less than the standard 10 lane that Westmoor, Terra Nova, and Oceana will have.

ANTICIPATION—Mrs. Vincent Alberti, Mrs. Byron Davenport and Mrs. Robert Gilmore smile on the harlequin in anticipation of the Westlake Catholic Women's eight annual Mercy Ball. The theme is "Harlequin Holiday." This outstanding event, on Oct. 28, will be a dinner dance at the Villa Hotel in San Mateo. Mrs. Frank Lawson, the chairman, announces that reservations are being taken by Mrs. Byron Davenport and Mrs. Philip Glebow.

Funds Approved For 250-Bed St. Mary's Help Hospital Here

Plans for the construction of the new 250-bed hospital in Daly City were advanced Oct. 19 when the State Advisory Hospital Council, meeting in Los Angeles, unanimously voted approval of $1,883,625 in Federal funds to Mary's Help Hospital to assist in financing the new facility.

As a result of the Federal grant, the State of California will give a matching amount, thus making a total Hill-Burton fund grant of about $3,800,000, or roughly half of the $7,600,000 hospital's total cost.

The present Mary's Help Hospital at 145 Guerrero street, San Francisco, has been operated by the Daughters of Charity of St. Vincent de Paul since soon after the turn of the century. Because of the age of the buildings and the lack of expansion facilities on the present site, the Sisters were advised to relocate the hospital.

BEST AREA

A survey showed that the No. 1 priority area in California in need of hospital facilities was the North San Mateo County area centering around the communities of Daly City, South San Francisco and Pacifica. With a current population of 120,000 this was found to be one of the fastest growing sections of the State.

According to Judge George B. Harris, ranking judge of the Northern California U. S. District Court, and chairman of the Board of Governors for the new hospital, the project has been endorsed by the following: San Mateo County Board of Supervisors, City Councils and Chambers of Commerce of Daly City, Pacifica and South San Francisco; San Mateo County Medical Society; Dr. Harold Chope, San Mateo County health director; San Mateo County Physicians Group, and the San Francisco County Development Association.

Among those in attendance at the public hearing in Los Angeles were: James Cummins, vice chairman of the hospital's board of governors; Councilman Harold Feyge of Pacifica, and Leo J. Ryan of South San Francisco. Lawrence Hoban, representing Sister Hermine, administrator of Mary's Help Hospital, was also in attendance.

"Detailed plans for the new hospital will now proceed at full speed," said Sister Hermine, when advised that the Hill-Burton funds had been approved. "Construction should commence in about a year, and the hospital should be ready to receive patients within three years."

THANKS FOR SUPPORT

Sister Hermine expressed her gratitude, as did Judge Harris, to all the public spirited citizens, community leaders and local city and county officials of San Francisco and San Mateo Counties who lent their "enthusiastic and dedicated support" to this project. Sister Hermine followed with a word of caution, stating "we must not overlook the fact that we still have the main task ahead of us, which includes the raising of approximately $2,000,000 by public subscription before this essential facility can become a reality."

"In return for their continued support and patronage," Sister Hermine continued, "we promise the people who will be served by this new project one of the finest and most modern hospitals in the State of California. In a very real sense it will be their hospital. We will merely be the custodians and the servants who minister to their medical, surgical and nursing needs."

The new hospital will be located on an 11-acre tract off San Fernando road in Daly City, beautifully situated on a hill north of the Christen ranch, west of Junipero Serra boulevard, and with a commanding view in all directions.

Although centrally located to serve the rapidly growing communities of Daly City, South San Francisco and Pacifica, the new hospital will be only 25 minutes from downtown San Francisco.

Sport Coat Thief Wore Size 37

A bandit entered the Arthurs of Westlake men's store in Westlake Court on Friday, Oct. 20, and removed 10 men's sport coats in various colors, all in size 37.

A woman reported she saw the man take the coats and run out of the store. Total value of the goods was $500.

Plans have been made for the Lionesses and members of the Lions Club to have a joint Halloween party on Saturday, Nov. 4 at the Broadmoor Community Center.

Travel Experts Address Group

"Where I Have Been" and "What I Have Seen" were the subjects related by guests Norman Heise, Paris Simmons and Carl Hunter at the 17th District California Congress of Parents and Teachers meeting held Oct. 19 at Fernando Rivera School.

Mrs. Joel L. Yager, director of secondary schools, introduced Mr. Heise. Heise, a science teacher at Carlmont High, Belmont, visited Turkey, where he spent several months. His experiences were expressed with the aid of color slides.

"I found this nation and its people most friendly, hospitable, curious, and desirous of knowing more about us," Heise said. "Socially, it is a nation of contrasts — rich and poor, modern and conservative. Geographically, the country is beautiful with many islands, rugged coastal area, and beautiful cities and mountains."

Mrs. Del Wilson, director of education, introduced Mr. Simmons and Mr. Hunter, two Benjamin Franklin teachers who motor-scootered through Latin America. Destination — Costa Rica. Their experiences were accompanied by slides, and their talk was enlightening and informative. The Westlake Times and The Record are currently featuring the stories of these men.

Comparing educational systems, Simmons pointed out the differences between Central American schools and schools of the United States.

"The teachers make very low salaries, under $90 per month in rural areas. Few have the training that is required to teach in the United States. Many have only a sixth grade education, and some less."

Lutheran Ladies Fete Pastor's Wife

A surprise luncheon was held at the officer's club of the Presidio, San Francisco, on Wednesday, Oct. 18, by the women of Hope Lutheran Church of Daly City in honor of Mrs. Paul Malte, wife of the recently installed pastor.

With Mrs. Irving Espen, president of the ladies' guild, acting as hostess, twenty-four women of the church gathered in the Anza room of the club at noon. Shortly thereafter, Mrs. Russell Hansen escorted the guest of honor into the midst of the group. Mrs. Malte expressed great surprise and pleasure over the festive event.

Another honored guest present was Mrs. Herman Heuer, aunt of Mrs. Malte, and the wife of Colonel Herman, C. Heuer, cheif of chaplains of the U. S. Sixth Army. Chaplain Heuer was the interim pastor of Hope Church until the arrival of Reverend Malte.

Good Friend

A San Francisco woman probably will pick her companions with more care in the future. And for "Roy," chivalry must have died a long time ago.

Saturday night, on the way home from a local bar, the car in which the lady was riding collided with a Vendome St. power pole. As witnesses gathered, a man bleeding "profusely" jumped from the car and disappeared down the street.

The woman, left to take the rap, stated in answer as to who was driving, that "I really couldn't tell you." Witnesses couldn't either.

Treated for a nose injury at Junipero Serra Hospital, she was also given a sobriety test. Her ability to drive was stated to be "impaired." The point may be moot. The only person who seems to know who was driving is "Roy," and this 20th century knight is nowhere to be found.

JUNIOR UNESCO CONFERENSE PLANS ARE MADE

The fifth and sixth graders of Thomas Edison School have made preparation for the San Mateo County's Junior UNESCO Conference to be held on Friday, October 27, at the Taylor Intermediate School in Millbrae.

The students who will represent Thomas Edison at the conference are Marsha Jones from Mr. Jonas' sixth grade, Larry Sullivan from Mrs. Kent's sixth grade, Jeanne Amaroli from Mr. Holm's fifth grade, Claudia Orozco from Miss Johnson's fifth grade and Janis Karp from Mr. Walden's fifth-sixth grade.

The students entered an essay contest in which they expressed their reasons for wanting to be a representative at the conference.

The emphasis of the conference will be placed on UNICEF, which is the United Nation International Children's Emergency Fund, so that the children of America will take a greater interest in helping other children around the world.

'Spooks' Can Use Halloween Safety

On the evening preceding All Saints' Day, Oct. 31, otherwise known as Hallowe'en, youngsters from toddlers to teenagers revert to their natural selves — they turn into witches, ghosts, goblins, pirates, skeletons, and all other forms of horrible characters.

They then abuse their neighbors and friends by banging on the front door and screaming, "Trick or Treat?" Smart homeowners find it is cheap insurance to have an assortment of candy, popcorn balls, fruit, and cookies handy to bribe these creatures.

It is better to part with apples and cookies than it is to have your windows soaped-up.

It Beats Vandalism

And as bothersome as this is, it still beats the vandalism and property destruction practiced by youngsters a few generations ago.

There is no doubt that today's trick-or-treat system is Halloween sport. But there are many hazards involved — to children in costumes, to motorists, and to homeowners.

The California Medical Association says you can help make Halloween accident-free. Here's how:

If your children insist on wearing costumes and masks, use cosmetics and burnt cork to paint the masks. Cloth masks or entire head masks are dangerous: they may slip and block a child's vision.

Don't allow your child to carry a knife or other sharp instrument, nor should youngsters have access to lighted torches or candles. If they must have light, make sure it is battery-powered.

Don't make or buy loose-fitting costumes that may catch on fences, bushes, and other obstacles, and check that the costumes are not too long so that the youngsters don't trip on them.

Avoid Dark Costumes

Avoid dark costumes — they are difficult to see by motorists. If the children insist on them, use reflecting tape or liquid "paint" that shines in the dark or reflects light. Use this tape or liquid on jack-o-lanterns, hats, caps, trick or treat bags, and just about anything else the youngster wears or carries. Most paint and hardware stores stock reflecting material.

Use flameproof or fire resistant materials for costumes, caps, and party decorations.

Homeowners should follow a four-point program of their own.

Light your property so the youngsters don't trip over stairs or other obstacles.

Cover excavations and put an easy-to-see fence around your flowers.

Put away lawn furniture and garbage cans, and be sure to lock the garage.

Bring pets inside at dark — bands of rowdy youngsters may excite them.

Slow Down

Motorists should keep in mind that gangs of youngsters will be roaming the streets in search of fun. Many will be dressed in black costumes, and they may be hard to see.

If you are driving the side-streets on Halloween, slow down. Excited children may dart between parked cars, cross in the middle of the street, and not look both ways before crossing.

The California poppy (Eschschlozia californica) is a perennial and one of the easiest of wild flowers to grow.

Spanish Helps His Popularity

By Randy Marcus

How does one get to be student body president of Westmoor High School? Carlos Rivas did it by giving his campaign speech in Spanish. Although undoubtedly the majority of his audience was unable to understand what he was saying, they must have liked the way he said it.

Carlos is interested in seeing some changes in the method of student government. He would like to have voting privileges extended to the class representatives instead of just to the executive board.

He also thinks that a student rally would be a good way to create more school spirit, and believes that it is possible to have a greater degree of student control and less adult supervision.

An average student, he was active in track events in his freshman and sophomore years, and was league champ in the 660 yard run.

Outside of school, he is president of the Mercian Club, which is the teen club at Our Lady of Mercy Church.

Carlos is a native of Costa Rica, but his family moved to the United States in 1952. His father knew some English, but Carlos and the rest of the family managed to learn the language quickly.

There are six children in the Rivas family, five boys and one girl. Carlos will be the second member of the family to graduate from Westmoor High School. One of his brothers is now studying to become a priest. Carlos plans to enter college after graduation, possibly at the University of San Francisco.

The View From ...Behind The Badge

"How do you think your wife will like the job?"

The young man is usually taken aback by this question. He is not looking for a job for his wife. He has taken all the exams, succesfully, and now he is being interviewed for the position of Police Patrolman.

The interviewer has not made a mistake. He is very serious. How a man's wife will like this particular job is almost as important as how the man, himself, will like the job.

Potential Policemen must feel a great deal of dedication if they are to remain in our ranks for any length of time. His wife must also be dedicated. Why? Well, let's take a look at the woman behind the man behind the badge.

Aside from the low salary which she finds difficult to stretch from one payday to the next, she may be in entirely new surroundings and among people she has never met before. The transition is a difficult one. Add to this the fact that law enforcement working hours are, to say the least, highly irregular.

In conformity with age-old tradition, the lady prepares the usual evening meal and waits patiently for the arrival of that policeman, her husband. As he walks in the house the phone rings, and he is called back on an emergency of some kind while his wife's labor of love grows cold on the table.

He may sit down of an evening with family or visiting only to be called away by another urgent phone call. Under these conditions it is difficult, to say the least, to establish a family routine. Again, the policeman is restricted in many of the social activities which another citizen can enjoy. He is now an officer of the law and, if he is a good officer, will act as such in and out of uniform.

In some respects, we may ask too much of the wife of a Policeman in these circumstances. It is easy to say that this is a woman's problem (or her part of an agreement, so to speak) but we can go further than this.

The Daly City Police Department inquires extensively of the candidate as to the thoughts and feelings of the wife or fiance here concerned. Has the candidate covered all aspects of his potential employment in conversations with the lady? The candidate is aware that he will be assigned to night duty for ten years, more or less—but does the woman in his life realize this?

Does she accept the fact that it will be night work, holiday work, weekend work, that the policeman works harder when other people are at play?

In essence, we are employing not only a policeman but his wife and family. In the final analysis the wife's desire will become paramount as time goes by. This is especially true if she is inclined to nag just a little bit. Under these conditions the quality of the officer's work is likely to decline.

Under these conditions, the Policeman is neither alert nor efficient. Family problems usurp his thoughts at the very moment when nothing should be on mind but his job. This can be dangerous as well as inefficient.

A better type of Policeman is recruited when departmental administrators give thought, and more than just a little to the woman behind the man behind the badge.

As indicated above, this is done in Daly City — with good results, for the most part. The day is approaching when departmental administrators will want to interview the candidate's wife as well as the candidate himself.

PERSONNEL GLIMPSES* Robert Peterson, 26 year old Civilian Dispatcher for this Department, has completed one year in this capacity. Bob is married, and is an active member of the Marine Corps Reserve.

APOLOGY* Some of the thought and content of the The Woman Behind the Man Behind the Badge (above) was purloined from an article originally written by Lyle Hyatt, Superintendent of the Utah Highway Patrol.

IT's THE LAW* The Federal kidnaping statute covers the unlawful abduction of a person, his transportation across a State line, and his detention for ransom, reward, or otherwise.

Fred Martin Will Head Bus. Group In Crusade Drive

Fred L. Martin has been appointed chairman of the Daly City business division by Paul Hupf, the Crusade's North County chairman for the North County business division.

A past president and currently a director of the Daly City Chamber of Commerce, Martin has been a leader in the community for many years. He is a partner in Central Pacific Insurance Agency, whose office is on Mission street.

Martin was also chairman for the 50th Anniversary Celebration Committee for Daly City.

He plans to work closely with groups of volunteers from the United Crusade agencies in the area in forming his Daly City organization.

The North County YWCA, with Mrs. Eleanor Reymond, has assumed responsibility for the Westlake area. Representatives of the Boy Scouts of America and local business men will handle the campaign in the other areas.

Commenting on the value of united giving, Martin said "I feel that by contributing to the United Crusade we are making our best effort to support the most worthwhile organizations in our communities and the Bay area."

LOIS FULLER DIES AFTER AUTO CRASH

A local musical team was parted this week as the result of a fatal auto accident on the Bayshore Freewey.

Lois E. Fuller, age 25, died Thursday night in the Mills Memorial Hospital, San Mateo, the victim of an auto crash early Wednesday morning.

Ron Fuller, the deceased's husband, is the organist and choir director at the Seacliff Community Church in Westlake. The Fullers were enroute to Pasadena to attend her grandfather's funeral, when their car was side-swiped by another auto on the Bayshore Freeway. Their car was flipped over the center divider, resting on its top.

The couple managed to escape just before their auto was engulfed in flames. Mrs. Fuller's death was attributed to shock and internal injuries.

Fuller has served as organist in a number of San Francisco churches. Lois was his co-worker as a lyric soprano soloist.

Her voice will not be silenced, however, since it is contained on a long-play record album produced by Simpson Bible College when she was a student there.

Pastor Clark Robb of the Seacliff Community Church is hopeful that recordings from a recent concert at the church will be of permanent value in preserving the message that was hers.

A memorial service will be held Sundey, Oct. 29, at 3 p.m., at Simpson Bible College, 801 Silver Avenue, San Francisco. Since both of the Fullers were graduates of the school, it seemed right to Ron that a memorial should be established there in lieu of flowers. Contributions may be sent to: The Lois Fuller Memorial, at the college, address listed above.

Funeral services and interment were scheduled for today in Pasadena.

Parents, Teachers Conference Held At Columbus School

Parents and teachers gathered together on Tuesday night, October 24th in Columbus School for the purpose of conducting a Parent-Teacher group conference concerning the school's program and its meaning for children.

Conferences were held in the individual classrooms, following an organizational meeting of the PTA. Teachers discussed with parents what subject areas will be covered during the school year, and what may be expected that children will learn.

Parents had the opportunity to discuss and ask questions concerning the curriculum and teaching methods employed by the teachers. It is hoped that a better understanding developed between parents and the school, thus making it possible to better assist children.

Following the group conference, refreshments were served in the multi-purpose room.

Police Officer Ball To Supply Hits And A Miss

Hits and a miss.

That's what's in store for dancers at the 33rd annual ball of Peninsula Police Officers Association on Nov. 4. at Bay Meadows clubhouse, according to chairman William Rodgers.

The hits will be supplied musically by the big band of Fred Hector, formerly of the Woody Herman and Hal McIntyre orchestras, Rodgers said, and the miss is lovely vocalist Sandy Bradshaw, winner of this year's Miss San Mateo beauty title.

Hector's 15-piece aggregation, besides playing current top tunes and special requests, features arrangements recreating the famous sounds of the Glenn Miller, Tommy Dorsey, Harry James and Les Brown bands.

Fred and Sandy share the vocal spotlight.

"With this fine talent lineup," said Rodgers, an officer on the San Bruno force, "we'll be offering the best music in the history of the ball, and we're doing everything else possible, too, to make this a night Peninsula partygoers will long remember."

Tickets, he reminded, have already been mailed to residents throughout the Peninsula. Proceeds will benfit the association's Widows and Orphans Aid and Welfare Fund.

Persons who did not receive tickets, or have misplaced them, may place orders by phoning the local police department, Rodgers said.

Lunch Auction

An old fashioned basket lunch auction is planned for Saturday night, Oct. 28, by the Democratic Council of Clubs, according to Edward Solomon, Daly City committee member.

The event will begin at 5:30 p. m. at the Eichler Highlands Community Center, 1851 Lexington avenue, San Mateo. Each woman is asked to prepare a basket lunch for the auction. Dancing will follow the dinner, said Solomon.

Committee members include Chairman Bertha Smith, Mrs. Ruth Burke, Jules Hipshman, Robert McCann, Mrs. Katherine McCann, and Solomon.

Tea Scheduled

The model meeting of Nu Sigma Chapter of Beta Sigma Phi was held recently at the home of Mrs. Claire Navarro. Guests attending were Miss Peggy Reese, Mrs. Aggie Bliss, Mrs. Betty Schmidt, Mrs. Bernice Gallo, Mrs. Alma O'Neil and Mrs. Shirley Furrer. New members will be honored at a tea, Sunday, October 29, at the home of Mrs. Isabel Eichner.

November 2 is the date of the next regular meeting at the home of Mrs. Dolores Fernandez, 84 Westlake. Mrs. Ruth Peterson will present a program entitled "Personality and Relationship."

Naturally air-conditioned, San Francisco has an equable year-round temperature.

Mr. Hallowe'en Visit At Vista Mar School

Mr. Halloween in person visited Mrs. Jeane Oberlander's second grade at Vista Mar School with a gift — a 35-pound real live pumpkin.

Mrs. Oberlander obtained the pumpkin from a friend's farm at Watsonville, and her second grade decided to share it with the school.

It is on the top of the mound in the Vista Mar patio. Mrs. Oberlander's group have given it a face and the primary children are having the experience of touching the pumpkin as well as enjoying its construction paper facial expression.

One remark by a kindergarten child when he saw it on top of the mound: "I just knewed it would 'dwop' from the sky."

Tea To Honor Mercy High Room Mothers

The "Room Mothers" will be the guest of honor at a tea following the board meeting of Mercy High School Guild on Tuesday, Oct. 31, at 1:15 p.m. at the school on Nineteenth avenue.

At the regular meeting Nov. 2, the program chairman will present as guest speaker, Chief of Police Thomas J. Cahill. His topic will be "Police Community Relations and Parental Responsibility."

Hillside PTA Member Drive To End Friday

The annual membership drive of Hillside PTA, representing Colma K-6 and Colma Intermediate Schools, will end on Oct. 27. However, those parents who still wish to join are welcome to do so even after the drive has closed. Fathers will be welcome.

Mrs. Nadine Nappi and her co-chairman, Mrs. Pat McArthur, have worked hard to make this year's membership drive a success.

Prizes will be awarded to the K-6 and seventh and eighth grade class that has the highest percentage of parents who have joined.

Vista Mar School News

Lee Borba, Steven Hurley and student body chairman Michele Seesee, all fifth grade Vista Mar students, are scheduled to attend the tenth annual Junior UNESCO Conference at Taylor Intermediate School in Millbrae on Friday, Oct. 27, from 9 to 11:30 a.m. This conference coincides with United Nations Week.

Activities in Miss Gel's fifth grade, represented by Steven Hurley, will be presented at the conference, since a bulletin board display organized as part of the discussion and meaning of UNESCO resulted in flags made by students in the room representing each nation.

Discussion, in terms of human relations, appreciation of human rights, likes and differences, prefaced the unit of work.

BAY CRUISE

The second and third grade classes of Miss Peggy Dwyer and Miss Marcia Evans of Vista Mar School recently enriched their social studies unit on the Bay area by touring the San Francisco Bay aboard the "Harbor Queen."

En route to the cruise, the bus trip took the children along the Great Highway, through the Golden Gate Park and along the Marina.

The harbor cruise gave first hand observation of the San Francisco skyline, Alcatraz, the Golden Gate Bridge and a trip under the Bay Bridge. The group climaxed this educational excursion with lunch at Aquatic Park.

Upon their return from this study tour follow-up at the classroom level, relative to topography, geographic concepts, as well as social concepts derived from this exeperience were discussed.

Two parents from Miss Evans' class also shared these values with the children—Mrs. Stratis Mountanos and Mrs. Joseph Pulizzano.

Overseas Mail Deadlines Told By Postmaster

The period Oct. 15 to Nov. 10 has been designated for mailing to points overseas in order to assure delivery before Christmas, Postmaster Vincent P. Murphy announced today.

Air service is available to practically all countries in the world. It is recommended that air mail parcels be mailed during the early part of December in order to assure pre-Christmas delivery, Murphy stated.

The long sea transit frequently involved in the transmission of parcels by surface means customs declarations and inspections, and other formalities that parcels may be subjected to in the countries of designation require that mailings be made sufficiently in advance to assure Christmas delivery.

Surface mails made no later than the following dates will normally reach their destination before Dec. 25:

The Far East—Oct. 15.

The Near East—Nov. 1.

Africa—Nov. 1.

Europe—Nov. 10.

South and Central America—Nov. 10.

Murphy also announced that every assistance in packing information, required forms, etc., is assured mailers in all stations of the Daly City Post Office.

New Bobcats Welcomed Into Pack No. 343

The second pack meeting of Daly City Cub Scout Pack 343 was held Oct. 16 at the Doelger Clubhouse in Westlake.

The flag ceremony was conducted by Den 2. Awards were given to Thomas Vanham and Gary D'Acquisto as Denner and Assistant Denner of Den 4.

Cubmaster Bob Pederson welcomed into the group the following new Bobcats:

Stephen Car, Stephen Angel, Stephen Leitner, Stephen Goldberg, David Hoefler, Biff Langshaw, Jeff Taylor, Chris West, Allen Back and Raymond Lotz, who was a transfer.

Several numbers were charmingly sung by Den 4 members Thomas Vanham, Gary D'Acquisto, Gary and George Arabian, Billy Goebel, Richard Jones, Larry Ross, Gary Pederson and James Chalios, who were appropriately dressed as waiters in derbies, bow ties, mustaches, white shirts and carried towels over their arms.

The Cubmaster reported that Saturday's San Francisco Airport open house trip, which was attended by the pack, was a success and enjoyed by all.

School Plays Middle Role In Discipline

"Welcome Parents — Have you joined your PTA?" was asked by Mrs. Relyea's third graders with large block letters. The primary reading texts used in the school made a colorful and informative display, paper jack-o-lanterns and other bright Hallowe'en decorations made by Mrs. Kinsey's kindergartens adorned the walls, and an appropriately awesome pumpkin dominated the refreshment table.

This was indicative of the mixed mood of business and fun which prevailed at the Garden Village PTA's Oct. 17 meeting, with Principal C. J. Martindale featured as guest speaker.

Martindale's address covered two basic points: "What do parents expect of the school?" and "What does the school expect of the home?"

In answering the first question, he outlined the state, county and local requirements upon which each teacher's lesson plans are based, pointing out that the curriculum is constantly being revised.

He stated that the school tries to maintain a middle-of-the-road program with the emphasis a little on the old-fashioned side with regard to discipline and a little on the progressive side with respect to the school program. In this connection he touched briefly on the school service program which is being initiated at Garden Village School with the idea of rewarding children for keeping the school orderly and making for school spirit.

In answer to the second question Martindale stated that a clean, healthy, obedient child is what the school expects of the home. He also stressed the importance of having school and home, faculty and PTA, work together for the best interests of their children. He ended by introducing the school's staff, giving a brief description of each one's qualifications and background and injecting some humorous anecdotes.

The meeting was opened by Den II, Pack 259, of the Cub Scouts, with the presentation of the colors by Edward Swanson, Michael Buell, Robert Rowe, Greg de Martini, Mark Fontana, Steven Mazza, Donald Shotts and Gary Fleischauer.

While refreshments were served parents had an opportunity to visit with their children's teachers. Mesdames Raymond Meade, Charles Sobiek, Theodore Bartelmez, Albert Hudson, Betty Cooper, and Lewis Haberman, fifth grade room representatives, were hostesses for the evening.

The Port of San Francisco leads all others on the Pacific Coast in general cargo volume.

Per capita income in the San Francisco Bay area is the highest in the world.

Vista Grande-Thornton PTA News

"To have a friend and be a friend is what makes life worthwhile!"

This excerpt from the appropriate character thought read by Mrs. Hazel Colwell, teaching vice principal, epitomized the "Let's Get Acquainted" program of the Vista Grande-Thornton PTA on the evening of Oct. 19 at Vista Grande School.

Big black cats made of construction paper were worn by the faculty and staff as name tags. Parents were pinned with orange pumpkins that carried their names. Tables were adorned with many cakes furnished by the executive board.

One cake in particular, topped with a flaming candle, drew attention as it was carried in by Mrs. Del Fehl, vice president of the PTA. All joined in singing "Happy Birthday" to a surprised Mrs. Colwell while Mrs. Al Tiraschi, unit president, pinned her with a corsage. Fate seemed to further the joy of the surprise when she was awarded the attendance banner for the evening and the PTA's membership prize for having the highest percentage of parent joiners from her first grade class.

Beach Assault

Marine Cpl. Thomas W. Dorcey, son of Mr. and Mrs. R. S. Dorcey of 1360 Castro court, Pacifica, is serving with the First Marine Brigade, a unit of an amphibious task force scheduled to take part in Operation "Silver Sword" on Oct. 30, assaulting beaches on the Island of Maui in the largest maneuver of its kind to take place in the Hawaiian Islands since World War II.

A routine training exercise to improve proficiency and teamwork in amphibious techniques, the operation will consist of 25 ships, 100 Marine Corps aircraft and more than 10,000 sailors and marines.

Climaxing several days' intense training in the area, the operation will begin when the first wave of the assault hits selected beaches on Maalaca Bay shortly after midnight and is met by "Opposing" forces to provide realistic combat training.

CENTRAL AMERICAN EDUCATION

By: Paris B. Simmons

(The writer of the series is happy to inform his readers that letters of congratulation on this series have been forwarded to him from a number of the Central American Republics, with requests for additional copies of the articles. He also wishes to thank the numerous local people who have phoned or made personal contact expressing their interest.

In the last article Sr. Alberto Gordillo Olivares of Irapuato, Mexico discussed home and family life. He continues, now, discussing items of international importance, based on his experience and observation).

We know the North American is concerned about Communism in Mexico, and I cannot say it does not exist. This would be a foolish statement and one that was not true. For many years they (Communists) have been spreading their poison to the Mexicans, but this poison has not had much effect, because the Mexican is polite and will listen, but after he listens he continues without changing, just as though he had never heard.

When there is no food, or a person is very young, then some of this poison may seep through. My friends and I could never accept Communism because of our religion. Mexico is a religious country. I would say over 90 per cent are Catholic. Our religion and Communism will never be companions.

Yes, I feel there is much the United States should have done to make Mexico stronger long before now. I do not mean militarily, but industrially. It is late, maybe too late, but I still have hope. When you see a neighbor doing his utmost to improve himself, but without the proper tools or technical knowledge, if you are a good neighbor and have these things, you will share them with him, so that you may both have a good living. Your large farm equipment firms should send salesmen to educate and sell their products to our farmers. This will not be easy, for they will be going against many years of traditional farming, but it is a necessary task that is vital to the Mexican economy. The farmers in this vicinity have the money to pay for such equipment, and must be made to realize its great advantage for them. The answer can only be one of education.

The Mexican is your brother and would willingly die in battle at the side of his North American kin but would it not be better to have a strong brother, one who is able to do his share in defeating the enemy, than one who is just willing to die out of love?

One of our greatest needs is in the training of Mexican people in the fields of plumbing, electricity and mechanics. The United States could do much to help by providing us with teachers, who will assist in presenting such training.

I would say that my country is about 40 years behind the U. S. industrially and educationally. We do have television in our larger cities, radio, and most of the labor saving devices, but they are not used by all. On the other hand we still have many homes with earth floors, outdoor toilets, washing being done in creeks, inadequate educational programs for our children and much child labor. If a child comes from a poor home he does not have a chance of going beyond the sixth grade, for higher education is private and for those who can afford to pay. Most of the poorer children do not go beyond the third grade — if they even go to school. Yes, we have compulsory education laws, but how do you convince a poor family with many mouths to feed, whose food is dependent on the labors of their children, that education is worth starvation? Our compulsory education law and our child labor laws are not enforceable at the present time.

Your idea (a partial solution to the above problem advanced by the writer), may be part of the answer. If, as you suggest, a cooperative program could be arranged where your teachers came to Mexico for their summer vacation and worked with our teachers, living in our homes and sharing our life, it would give us the opportunity to know the North American citizen rather than the North American tourist. At the same time you would be bringing your ideals of Democracy to us, and taking back a deeper understanding of our people and our problems. Both countries would benefit. I hope you will do something with this idea for it is most worthwhile. May I point out that the success of such a program will be dependent upon the selection of teachers who are interested in us, not merely interested in a free vacation. I believe you have in the United States teachers whom you award the title of dedicated. This is the type of person both countries need.

Since we are being frank, I should like to offer another possible solution to a problem that confronts Mexico. This is of your farmers taking our poorer people to the States to work crops. I do not believe this is right. Of course the Mexican wants to go to the United States where he believes everyone is rich. He is hungry. When he returns to this country, which he must, he is unhappy and expects more than our country is able to give him. Yes, Mexico must pay higher wages and provide employment that gives a decent living wage, but it must be evident that we are unable to meet the wage scale of the U. S. Remember, the 40 years difference between your country and mine. The solution to this problem is not in the poor Mexican going to the U. S. to work your farms, but in morking towards improvements of our standards of living here. I say, pay your farm labor more so that they may have a good standard of living and permit the Mexican to stay and contribute to his own country.

In Mexico, until very recently, foreign capital has been discouraged. This has been done by the government insisting that all businesses in Mexico must have a Mexican partner who has a 51 per cent interest in the firm. A very short while back President Lopez Mateos authorized one of your canning firms to come into this area and build a plant, without this restriction. This is doing much for this city and is a big step forward.

Just as in the United States, you will hear your elective officers criticized, you will hear in this country criticism of our President. I believe he is a good man of great honesty and one who has the interest of our country in his heart. He has done much for Mexico. I would prefer him to be more severe with Castro, but he is human and humans make mistakes. It would be a wonderful thing if you could speak with him when you reach the capital.

Yes, we have socialized medicine which is financed by the national lottery and worker contributions. While I cannot speak for all of the citizens of Mexico, I can say that most of the people of my acquaintance prefer not to have it. Under the program the worker must pay a percentage of his salary whether he needs the service or not. To the poor worker even a peso out of his day's or week's earning is a hardship which they do not want to face. In addition the medical centers are always so crowded that it takes many hours to be taken care of, which means further loss of time from work and earnings.

You ask for my criticisms of the North American tourist? I reply it is not courteous to criticize a friend, yet I will offer a few suggestions that may make their remembrance in our country much more pleasant. Tipping is acceptable in our country, as the generous hearted North American will do, but to give a large tip to a person who is accustomed to living on a few pesos a week encourages begging. Sympathy is fine and we appreciate the generous pocketbooks of the North Americans, and will attempt to empty them for you while you are here, but the problem of our poor must be solved by employment, not handouts.

The second suggestion is in connection with our water. Of course tourists have concern in this regard, but let me assure them that the water served in the larger cities is very pure. I do not suggest that they drink water in the smaller villages, but would it not be politer, if the tourist is afraid of our water, to request a bottled drink?

The tourist is frequently unkind in his remarks of our country, particularly in discussion of food being served in a restaurant. May I suggest that instead of criticizing a menu the tourist order items that he feels reasonably comfortable eating? Among items that should cause no concern are those foods that are cooked for a long time or over very hot stoves. Beans are a staple food of our diet, and we do not consider it unusual to serve them at any meal.

An impression given by many tourists is that they are only interested in experiencing the most undesirable Mexico has to offer, and then to speak of it to us when they visit our public places. Certainly Mexico has much that is wrong, but it also has more that is good. All our women are not bad. All of our markets are not filthy. All of our towns are not unsanitary. All of our people are human beings!

It has been most pleasant spending this evening with you, and I feel very bad that you cannot stay in our village longer. I do not want this friendship to end, and hope you will come back soon and visit your Mexican friend Alberto. To keep our friendship alive, will you write to me in English and I will reply in Spanish. We will learn from each other.

Grace Church Fall Bazaar Slated Nov. 2

Year after year, the people of the community make their way to the Grace Church social hall of Daly City to enjoy the colorful atmosphere, and the excellent luncheons and dinners sponsored by the women's council of the church.

The church is especially favored in having good cooks who serve nothing but the best quality foods.

Another item which attracts so many people is the motto of the council " a full dollar's worth for every dollar spent."

The various booths will be gaily decorated in fall colors, and will contain many lovely hand-made articles which ladies of the various circles, which make up the council, have been preparing all year. These articles make excellent Christmas gifts. The home-baked goods also are very popular.

Grace Church is the oldest Protestant Church in Daly City. The new sanctuary and social hall was built in 1950.

The social hall is equipped with a large modern kitchen, and spacious assembly hall.

Armenian Delicacies To Be Featured Oct. 27 - 29

Famous Armenian delicacies are one of the many features of the three-day 19th annual church bazaar on Oct. 27, 28 and 29 at St. John's Armenian Apostolic Church, 175 Olympia way, San Francisco.

Armenian dishes, including Shishkebab (herb seasoned barbecued meat on skewers); Pilaff (Armenian rice); Kufta (the Armenian varsion of stuffed meat cakes); Souberg (flaky dough with cheese), and Paklava (sweet pastry) will be served buffet style throughout the weekend. All dinner preparations will be undertaken by the St. John's Ladies Auxiliary.

Free recipes of Armenian dishes will be handed out at the door to familiarize the public with the eating habits and exotic ingredients used in Armenian cuisine.

In a sense these recipes are far more cosmopolitan than expected. They exude the oriental flavors of spice and myrrh, and date back thousands of years. Some of them can be found today in use among the Arabs, Persians, Syrians, Greeks and Jews. They are not only representative of Armenia but of the entire Near East.

Game booths with prizes will be open during the three day affair, and an Armenian orchestra will provide entertainment and music for Armenian dancing on Saturday and Sunday evenings.

Friday evening's program geared to small fry entertainment will include Halloween costume judging and games. Dinner will be served from 6 to 10:30 p. m. Friday, Oct. 27; from 5 to 10:30 p. m. on Saturday, Oct. 28, and from 1 p. m. to 10:30 p. m. Sunday, Oct. 29.

Westmoor Wins League Cross Country Match

After Westmoor's fabulous cross-country varsity victory at Aragon, Tuesday, against Aragon and Terra Nova, the Rams returned to Westmoor for another win against Jefferson and San Mateo on Thursday. These two victorious league meets put Westmoor in a 6-0 position in the Peninsula League.

The times of the meet were comparatively slow Thursday afternoon; however it was the first time Westmoor used its new difficult "course of hills."

None of the varsity runners broke 10:30. Dennis Tracy again took first place for Westmoor with a 10:32.9 and was closely followed by two San Mateo men, Procella and McClasham who ran 10:34 and 10:37 respectively.

White gave Jefferson a fourth place at 10:41. Fifth and sixth places were then taken by Ted Pickerrell and Brandt Larsen of Westmoor.

With only two men, Peterson of Jeff and Smith of San Mateo, in front of Ed Raymond and Ken Rau, Westmoor won the meet. Westmoor totaled 31 points, San Mateo 38, and Jefferson, 51.

The Rams of the Frosh-Soph race were defeated by both Jefferson and San Mateo, San Mateo winning over Jefferson 33 to 40 and Westmoor which totalled 49 points.

Westmoor picked up again taking second place to Jefferson in the junior varsity race. Marinez, Heikkila, and Mares took the first three places for Jeff and Westmoor followed closely with four of its men, John Behrman, Chas Reade, Jim Mills, and John Bartelmez, who took fourth, fifth, sixth and seventh places respectively.

Machgan of Jefferson and then Smith of San Mateo were the only men who separated Ram Tom Dooley from four previous mentioned teammates. The race resulted with Jefferson having 25 points, Westmoor 32, and San Mateo, 91.

An added attraction will be the famous Border Collie Sheep Dogs, presented by Arthur N. Allen of McLeansboro, Ill. In their own class, Allen's Border Collies are unsurpassed in competition.

The Championship Rodeo, with a purse of $56,780, will attract to the Cow Palace the world's top cowboys and clowns.

America's finest horse show, too, will grace every program, and the Livestock Exposition includes the very best in dairy cattle, beef animals, swine and sheep, each rich with prize money for the competitors.

The livestock purse exceeds $103,000 and the horse show money is more than $60,450.

NICKEL ALLOY PROTECTS SPEEDY AIRCRAFT

The United States government research rocket plane, the X-15, which recently flew at the greatest speed ever attained by a manned aircraft, has a metal skin made of a special nickel alloy which maintains its strength at the high temperatures generated by aero-dynamic heating during hypersonic flight.

Tigers Still Trying After Four Losses

Still winless after four games, Terra Nova's Tigers never-the-less continue to flash bright streaks of brilliance often enough to make coach Floyd Gonella at least optimistic for the future.

At the present the names of 5 boys keep emerging when discussed. Manuel Pick (guard and linebacker), Dennis Carruthers (fullback and linebacker), Dan Gentry (guard and defensive tackle), Dewey Melton (end and defensive back) and Jim Boyette (offensive and defensive halfback) indeed make looking forward much more pleasant than the backward glance.

★ ★

Terra Nova's cross-country team offers other bright spots, not the least of which is coach Dennis Lanterman's optimistic smile.

A respectable 4-2 win-loss record is owned by the varsity squad, with senior Jim Beeler the race horse of the team. He usually has Dan Vincent, Steve and Clint Miller chasing him from short range.

Although the lightweight basketball squads have as yet to emerge victorious, as they used to say in the tuxedo days of sports, they too, are beginning to achieve their "personalities" by way of some outstanding individual achievements.

The 110's, coached by Frank Lawler, have thus far spawned the likes of Doug Rhodes, Bernard Bolter and Jim Morago.

Rich Burt's bigger boys, the 20's, have gotten good mileage of late from Jack Bresnahan, Terry Walker and Barry Chivo.
